OBJECTIVE

MCA student with hands-on experience in Artificial Intelligence, Machine Learning, Computer Vision, Flutter, and Full Stack Development through academic and industry projects. Passionate about building scalable software solutions and seeking Software Engineer, AI/ML Engineer, or Full Stack Developer opportunities.

EDUCATION

Master of Computer Applications (MCA) 2025 – 2027 (Expected)

Mar Athanasius College of Engineering, Kothamangalam

Bachelor of Computer Applications (BCA) 2022 – 2025

St. Joseph's College, Devagiri (CGPA: 7.942)

Higher Secondary Education (Science) 2020 – 2022

VKS HSS Varakkad (Percentage: 93%)

SKILLS

- **Languages & Databases:** Java, Python, C, JavaScript, MySQL, MongoDB, SQLite, Oracle Database
- **Frameworks & Tools:** Flutter, Django, Flask, React, Git, GitHub, VS Code, Figma
- **Machine Learning & AI:** TensorFlow, Keras, OpenCV, Scikit-learn, NumPy, Pandas, NLTK
- **Concepts:** REST APIs, Computer Vision, Deep Learning, Transfer Learning, Explainable AI
- **Soft Skills:** Communication, Leadership, Teamwork, Quick Learning, Problem Solving

INTERNSHIP

Artificial Intelligence & Machine Learning Intern May 2026 – Jul 2026

Nestsoft Technomaster Pvt. Ltd.

- Developed QualiVision AI, an industrial quality inspection system for automated tomato freshness classification using Computer Vision and Deep Learning.
- Built image classification models using TensorFlow, Keras, and EfficientNetV2B0 with Transfer Learning.
- Integrated Grad-CAM visualizations to improve Explainable AI and model interpretability.
- Developed a Flask backend with SQLite logging and a real-time industrial dashboard.
- Enhanced model performance through image preprocessing, data augmentation, and systematic evaluation of classification results.

Data Science Virtual Intern Sep 2025 – Nov 2025

Alpha Innovation Pvt Ltd, Bangalore

- Successfully completed a virtual internship focused on Data Science concepts and practical implementation.
- Gained exposure to data analysis workflows, machine learning fundamentals, and real-world problem-solving.

PROJECTS

QualiVision AI | *Python, TensorFlow, Flask, OpenCV, EfficientNetV2B0, SQLite*

Developed an AI-powered industrial quality inspection system capable of real-time tomato freshness classification using Computer Vision and Transfer Learning, designed to support automated quality inspection workflows. Built a Flask-based dashboard with prediction logging and Grad-CAM visualizations for Explainable AI.

Xplora – Kerala Tourism Chatbot | *Python, Django, TensorFlow, Keras*

Developed a deep learning-based tourism chatbot providing personalized recommendations, sentiment analysis, and interactive location discovery.

Xynapse – Flutter App | *Flutter, Provider, SQLite*

Built a Flutter mobile application featuring a responsive UI and effective state management using Provider and SQLite.

Readify AI | *Python, Flask, AI*

Developed a Flask-based web application that converts PDF documents into audiobooks using text extraction and AI-powered text-to-speech.

CERTIFICATIONS

- NPTEL Elite Certification – Human Computer Interaction (90%) – IIT Madras
- Flutter and Dart Certified Developer – Maitexa Technologies
- Python Django Development – Riss Technologies
- UI/UX Designing using Figma – TechByHeart

ACHIEVEMENTS & ACTIVITIES

- Core Member, IEDC – St. Joseph's College, Devagiri
- Event Coordinator, ENVI Department Fest
- Led Team GLITCH during an 18-hour Hackathon and developed multiple web applications
- Participated in Red Team Security Summit, IEDC Summit, and Vibe Coding events

HOBBIES & INTERESTS

- Problem Solving | Rubik's Cube | Travelling
